样机交期

我们做什么

我们把全部精力放在一颗电机上：吸尘器、洗地机、擦地机里的那颗电机。两条产品线，高速无刷风机 120–240W，交流有刷电机 550–1400W，覆盖从手持无线到桶式干湿两用的全部主流机型。不做别的，所以参数、工艺、良率都只围绕这一件事打磨。

产品线

• 高速无刷风机 BLDC-65G / BLDC-85G

14.4 / 18 / 21.6V, 120 / 160 / 240W, 吸力最高 85W, 转速 6.5 万转

• 交流有刷电机 V1J-PT / PA / PE

100–240V, 600–1400W, 最大真空度 28kPa, 最大流量 2.4m³/min

• 洗地机电机 V3J-P

100–240V, 550–900W, 针对干湿环境优化的绝缘与密封

我们能配合什么

代加工 (OEM)

按您的图纸和样品生产，贴您的品牌

非标定制

轴长、法兰、风叶、引线、转速曲线都可以改

样机打样

1 台起做，7–10 天出样，参数逐台实测并附报告

认证配合

按目标市场配合申请 CE、RoHS、UL，费用另计

质量控制

每台 100% 下线检测：耐压、绝缘电阻、转速、电流、真空度、噪音、振动、温升、寿命抽样。原料进厂检验，成品老化 30 分钟后再测，不合格不出厂。

What we do

We put everything into one component: the motor inside vacuum cleaners, wet dry vacuums and floor scrubbers. Two lines — high-speed BLDC fans at 120–240 W and AC universal motors at 550–1400 W — covering every mainstream machine from handheld cordless to canister wet & dry. Nothing else. That focus goes into specs, process and yield.

Product lines

- **High-speed BLDC fan** [BLDC-65G](#) / [BLDC-85G](#)

14.4 / 18 / 21.6 V, 120 / 160 / 240 W, up to 85 W suction, 65,000 rpm

- **AC universal motor** [V1J-PT](#) / [PA](#) / [PE](#)

100–240 V, 600–1400 W, up to 28 kPa vacuum, 2.4 m³/min airflow

- **Floor scrubber motor** [V3J-P](#)

100–240 V, 550–900 W, insulation and sealing for wet environments

How we work with you

OEM

Produced to your drawing and sample, under your brand

Customization

Shaft, flange, impeller, lead wire and speed curve

Samples

From 1 pc, 7–10 days, each unit tested with a report

Certification

CE, RoHS, UL arranged for your market, cost extra

Quality control

100% end-of-line test on every unit: hi-pot, insulation resistance, speed, current, vacuum, noise, vibration, temperature rise; life test by sampling. Incoming material inspection, 30-minute burn-in before final test. Nothing ships below spec.
